Corded Wood Pole

Combining the beauty of a wood pole with the smooth functionality of a track, any 45mm Origins pole can be corded to give an added level of convenience and control.

We lovingly hand make your corded pole by inserting a metal track into the underside of the pole, so that your curtains can be suspended from the gliders in the track, removing the need for rings. This gives a stunning finished look with the curtain heading running much tighter to the pole.

Origins Corded Wood Pole is supplied with a choice of child safety devices that have been tested and approved by Bureau Veritas for your total peace of mind.

Origins Accessories

Poles are supplied with 10 rings per metre, additional rings are available to give you total flexibility

Recess Brackets are perfect when space is at a premium or you want to install into a recessed window

Origins Holdbacks are available in all six colours to give the perfect finishing touch to your window
